COMMUNITY REVIEWS

NostalgiaRider ★ 10/10

"An absolute masterpiece. Spielberg captured the childhood awe of dinosaurs in a way that modern CGI simply can't touch. The tension in the kitchen scene with the raptors is legendary."

CinephileMax ★ 9.0/10

"Amazing mix of practical effects and computer graphics. That initial T-Rex breakout is still one of the greatest technical and narrative triumphs in cinematic history."

DinoLover93 ★ 8.5/10

"Classic blockbuster that defined a generation. Williams' score gives me goosebumps every single time. It truly is the gold standard for adventure films."
